

YOUR SKIN

At Living Skin Clinic, *your* skin is top priority, and *everybody's* skin is different, therefore, so are your treatments! At the forefront of real skin science, Corneotherapy is the premise used here to encourage NATURAL healing and anti-ageing functions of the skin, without chemicals, dermabrasion, blading or peels. All facials are tailored to the needs of YOUR skin and its conditions, such as acne, rosacea, wrinkles, sun damage, pigmentation and more.

Your initial Skin Analysis involves a full consultation to help get to the real cause of your skin concerns. Your ITP (Individual Treatment Plan) will then be offered, for restoring balance, slowing down the ageing process and obtaining a fresh, healthy glow!

Book your FREE* Skin Analysis today, and start your journey to healthy, radiant skin!

CIT

COLLAGEN INDUCTION THERAPY

The perfect "Skin Goal" treatment to complement your bespoke in-salon facials and home care protocol.

C.I.T is the ULTIMATE non-surgical, anti-ageing skin tightening & firming treatment.

Also known as 'micro or skin needling', this mechanical process of C.I.T gets the skin cells working at full capacity, to heal and help restore almost all skin conditions to a normal healthy balance, including fine lines, redness/capillaries, sun damage, enlarged pores, scarring, stretch marks, pigmentation and more. The production rate and quality of precious collagen, elastin and hyaluronic acid is highly increased, giving structure and density back to your skin, resulting in a radiant, youthful glow and turning back the clock! This treatment includes a follow-up appointment to accelerate healing.

Disclaimer: Skin cells need to be prepped for CIT! Clients will be able to take advantage of this amazing treatment after following their ITP (Individual Treatment Plan) for at least 4 weeks.

SUGARING

If you haven't heard of sugaring, you are in for a sweet treat! Dating back to ancient Egyptian times, Sugaring is the worlds original hair removal method. *All natural* ingredients (sugar, lemon juice and water), very gentle on the skin, does not promote redness or histamine response as wax can... Skin feels so soft and so much smoother afterwards! Longer lasting results, as hair is taken out in the SAME direction as growth, not opposite. Why not give it a try today?
